DEQ did very well in the Open House. Excellent! Very good organization and control of the public during the Open House.

They very clearly and strongly indicated the lack of funds by the State, and that EPA have Federal funds for cleanup.

It sounded like there are Federal funds on-hand to start at any moment, but is OK, they also indicated that EPA needs to search for PRPs and this is a long process.

Now, do we want them to take the lead over community involvement?

Maybe they can do that, but they need to be very aware that the enforcement process is a slow process and needs to be done first. EPA will only place fences, signs, plug wells, and do immediate cleanup actions in cases of emergencies. ODEQ recently sent an email to EPA requesting we consider doing these actions. Removal is currently looking at this.

Bill/Joy,

DEQ wants to take the lead on community involvement for the Wilcox Oil Company Superfund site. We will be starting the community interviews portion of preparing the Community Involvement Plan in the next few weeks. If you have any questions feel free to talk to Todd Downham the DEQ project

9515923

manager. We may be calling you for advice and bounce ideas off of you. We will also let you guys review our draft CIP when it is ready.

Let me know if you have any questions!
